2010 Calendar of Events**

Aims and Objects (straight from SNEC Constitution)

- Promote the protection of the natural biodiversity, landform plant communities, animals and animal habitats in the coastal zone within the municipality of the City of Stirling and adjoining areas.
- Promote an awareness of the need to conserve environmentally sensitive areas in the coastal zone within the municipality of the City of Stirling and adjoining areas.
- Contribute to the development of policies that promote ecologically sustainable land use within the coastal zone within the City of Stirling and adjoining areas.
- Undertake community-based coastal restoration and rehabilitation projects within the municipality of the City of Stirling and adjoining areas.
- Develop action plans in consultation with the City of Stirling and other stakeholders for the care and management of the coastal zone within the municipality of the City of Stirling.
- Obtain financial or in-kind support for activities that facilitate education, conservation and sustainable land use within the coastal zone within the municipality of the City of Stirling and adjoining areas.
- Communicate and co-operate with other organizations interested in the sustainable land use of the coastal zone within the municipality of the City of Stirling.

Recognition for SNEC's efforts

In late 2009 SNEC received two (2) awards. One (1) Winner Australian Government Coastcare Award, Western Australian Landcare Awards. Two (2) Commendation Certificate for Community Group Effort, WA Coastal Award for Excellence. We are proud our volunteers have been nominated and recognized in this way.
